

A New Way to Pay

“ In this day and age, why is anyone still waiting for a paycheck? ”

For Steve Barha, founder and executive chairman of Instant Financial, that was the question that started it all. A longtime financial entrepreneur, Steve knew that many Americans—especially those working hourly—struggled to pay bills between paychecks. Sometimes, that meant taking on a high interest payday loan because they couldn't access money they had earned.

That sparked an idea: What if there was a simple way for workers to access their earned pay on demand? As a result, Instant Financial was created. It provides true financial wellness to employees to help them get ahead—at no cost.

Instant empowers your employees to have more control over their wages, which allows them to get out of the debt cycle and build financial stability.

WHAT OUR PARTNERS ARE SAYING

“ We measured our turnover pre and post Instant Pay pilot and found stores on Instant had a 6% reduction in turnover and stores not on Instant went up 8%. That is a 14% swing in a few short months. ”

Aaron Humphrey, CFO
Sundance, Inc./Old West Properties

“ When we partnered with Instant a few years ago, we were seeing more and more people use credit cards and we had less cash to pay out tips and mileage to our drivers. Instant is the perfect solution to go cashless in our restaurants. ”

Brad Leonard, CFO
Papa Johns (PJ) United

“ Super easy to implement. They helped us with training and documentation. It could literally be implemented overnight. ”

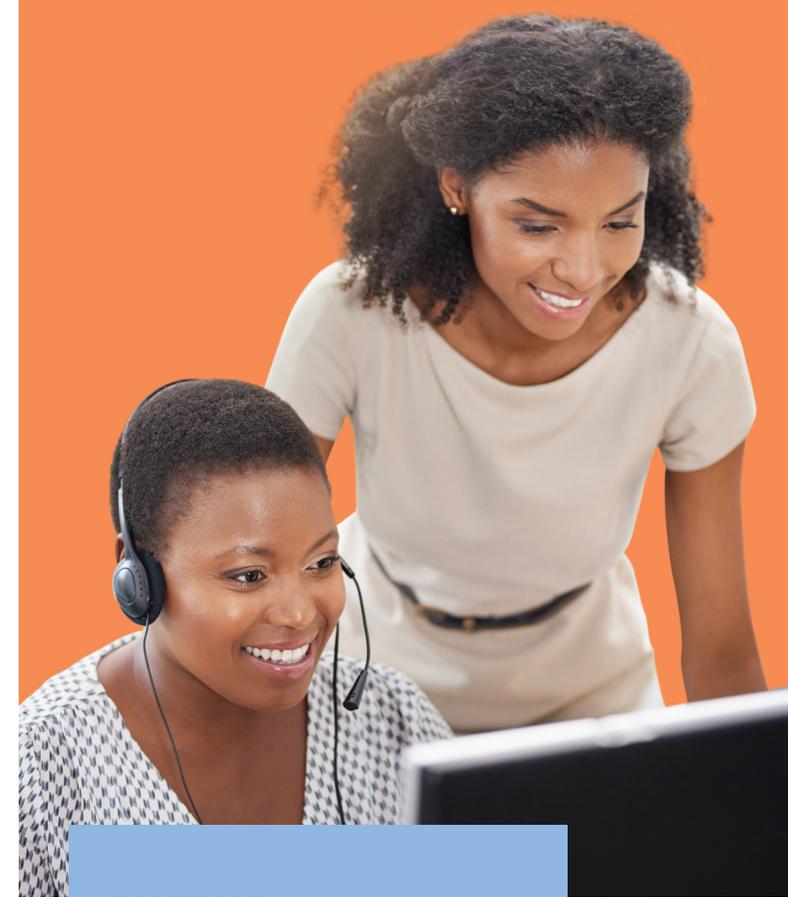

Mark Veyette, CTO
Argo Contact Centers

“ At the 22 restaurants in Tampa that were involved in the Instant pilot program, there was approximately a 20% reduction in employee turnover rates for those restaurants. Based on the success of the pilot, the company rolled out the platform to all of our 250 company stores. ”

David Bode, Senior Director of People Support
Checkers & Rally's
